

Bellville ISD Health Policies

Student Health Services
Administration of Medication by Authorized School Personnel

MEDICINE AT SCHOOL

Only authorized employees, in accordance with policies at FFAC, may administer:

- Prescription medication, in the original, properly labeled container provided by the parent/guardian, along with a written request including name of student, name of medication, dosage, date, and parent/guardian signature. Medication will not be administered differently than the label specifies without a new prescription or written documentation from the physician.
- Nonprescription medication, in the original, properly labeled container, provided by the parent along with a written request including name of student, name of drug, dosage, date, and parent/guardian signature. Medication will be administered based on the manufacturer's recommendations for age and/or weight.
- Herbal or dietary supplements provided by the parent only if required by the student's individualized education program (IEP) or Section 504 plan for a student with disabilities.

The district does not accept or administer medications that contain narcotics for the safety of the student(s) and in compliance with the District's Drug Abuse Policy. If a student has been prescribed medication in this category for pain, cough, etc., they are asked to remain at home until they are able to replace the medication with an over-the-counter product or a non-narcotic prescription medication while at school for symptom control.

In certain emergency situations, the district will maintain and administer to a student nonprescription medication but only:

- In accordance with the guidelines developed with the district's medical advisor; and
- When the parent has previously provided written consent for emergency treatment on the district's Registration form.

ALL medications are to be kept in the nurse's office. Medications will be kept in a locked cabinet.

When dispensing medications, the qualified district employee administering the medication(s), will keep records indicating the date, time, dosage, and will initial and provide his/her signature.

At the end of the school year: All medication must be picked from the school clinic by the last day of school. Any medication left at the school will be disposed.

Student's violating this procedure will be subject to disciplinary action under the district's drug abuse policy.
